

K-Mate SG™

- **Potassium Humate Granules**
- **Water Soluble Granule**

0-0-14

GUARANTEED ANALYSIS

Soluble Potash (K ₂ O)	14.00%
Nutrients derived from potassium humate	F002091
Non-Plant Food Ingredient:	
Active Ingredients	
Humic Acid*	53.00%
*Derived from Leonardite	
Total Other Ingredients	47.00%

Warning
 MAY BE HARMFUL IF SWALLOWED
 MAY CAUSE MILD SKIN IRRITATION
 MAY CAUSE EYE IRRITATION
 MAY CAUSE RESPIRATORY IRRITATION

Precautionary Statements

Call a poison center/physician if unwell. If skin irritation occurs, get medical advice. If in eyes, rinse cautiously with water for several minutes, remove contact lenses. If eye irritation persists, get medical advice. Wash hands after handling. Use only outdoors or in well ventilated areas. Avoid breathing dust. If inhaled, remove to fresh air and keep at rest in a position comfortable for breathing. Store container tightly closed. Dispose of contents/container in accordance with national/regional/local regulations.

First Aid

If swallowed: If victim is alert and not convulsing, give one glass of water to dilute material, but DO NOT induce vomiting. Seek immediate medical attention.

If on skin: Wash affected areas with soap and water. Seek medical attention if irritation persists. Wash contaminated clothing before reuse.

If in eyes: Immediately flush with water for at least 20 minutes. Seek medical attention if irritation persists.

If inhaled: Move victim to fresh air. Seek medical attention if irritation persists.

GENERAL INFORMATION

K-mate SG is a uniform granule which utilizes water soluble granule (SG) technology. Each granule will solubilize in water of pH's above 6.0. K-mate SG can be tank mixed with water and fertilizer mixtures or with water alone. To be certain of compatibility, be sure to perform a jar mix test of your ingredients prior to mixing this product into your tank. To mix Humic Acids directly with liquid fertilizer, use Andersons Ultramate SG.

DIRECTIONS FOR USE

Apply as directed or as advised by your Andersons representative or local agronomist. Some situations will require higher use rates and/or more frequent applications to produce significant benefits.

K-mate SG can be applied to all crops, including vegetable crops, row crops, herbs and field crops; trees; shrubs; vines; turf; ornamentals; nursery; xeriscaping; garden landscaping and potting soils. Apply 1-6 applications during the growing season.

CROPS, TURF, ORNAMENTALS and BEDDING PLANTS

(BROADCAST SPRAY or FERTIGATION) – Apply at 1-10 pounds per acre (1-12 Kg/Ha) up to six times during the growing season with water. Application rates and frequency are dependent on crop, soil, and related growing conditions. For banding application, apply 1-10 pounds per Acre (1-12 Kg/Ha) as a soluble spray or direct granular application with seed-box or air-seeder.

To make a liquid mixture, add water to your vessel, begin agitation, then add K-mate SG slowly to the water.

12% Humic Acid Liquid Mixing Instructions:

Operators can utilize K-mate SG to make a 12% Humic Acid liquid concentrate. To manufacture this concentrate, mix 1 pound of granules for every gallon. Agitate thoroughly until all solids have made it into solution. (Metric = 0.12 Kg/l)

IMPORTANT: READ BEFORE USE:

Read the entire Directions for Use and the Warranty Disclaimer and Limitation of Liability before using this product. If terms are not acceptable, return the unopened product container at once. By using this product, user or Buyer accepts the following Warranty Disclaimer and Limitation of Liability:

WARRANTY DISCLAIMER AND LIMITATION OF LIABILITY:

Manufacturer warrants that this product conforms to the chemical description on the label and is reasonably fit for the purposes stated on the label when used in strict accordance with the directions.
